

DEATH CERTIFICATE NOTIFICATION

MEMORIAL REGIONAL MEDICAL CENTER Department of Oncology Fax: 555-0199

To: Dr. Sarah Peterson, Primary Care From: Dr. Michael Yang,
Hematology/Oncology Date: December 18, 2022 Re: John Smith (DOB:
03/12/1958, MRN: AML001)

Dear Dr. Peterson,

I regret to inform you that Mr. John Smith passed away on December 15, 2022 at 14:47 in our hospice unit.

As you recall, Mr. Smith was diagnosed with adverse-risk AML (TP53/ASXL1 mutated) in early January 2022. He received venetoclax/azacitidine starting 01/22/22 with initial partial response, but progressed mid September. Given his poor performance status and persistent cytopenias, he was transitioned to BSC in November. His wife Barbara was at bedside. Death certificate listed immediate cause as respiratory failure secondary to AML with pneumonia.

Please contact our office if you need additional documentation.

Sincerely, Michael Yang, MD
