PATIENT DEATH NOTIFICATION

Dorothy Hall (DOB: 10/01/1947, MRN: AML024) expired 07/07/2023 at 19:45.

Summary: 75F with AML (RUNX1-mutated, adverse risk) diagnosed 09/30/2022. Received azacitidine monotherapy starting 10/10/22 (not candidate for intensive chemo due to severe COPD). Progressed after 7 months.

Admitted 07/01/2023 with blast crisis (WBC 178K), leukostasis, respiratory failure. Despite hydroxyurea, leukapheresis, and supportive care, continued deterioration. Transitioned to comfort care 07/06/23 per patient/family wishes. Peaceful death with family present.

Death certificate will be completed by attending (Dr. Hayes).

Contact ward at 555-3400 with questions.
